

EDGES

CORTECCIA S178 MUGELLO

Corteccia texture redefines the elegance of the chestnut wood. In the ancient peasant culture, the chestnut was considered the symbol of foresight, as it was able to feed, like a good parent, his children throughout the winter. Based on this popular belief, it used to build a chestnut wood crib to make the baby grow strong and sturdy. Corteccia texture enhances the importance and the length of the flames, reducing their rustic appearance.
